SUMMARY

A motivated graduate proficient in Java, HTML,CSS,JavaScript ,basics of React and SQL.Possessing interest in web development and database management.Commited to staying updated with emerging technologies and continously enhancing technical skills.Eager to contribute expertise and dedication to dynamic team environment.

EDUCATION

B.E - Mechanical Engineering
Kongu Engineering College • Erode • 2023 • 8.17 CGPA

HSC
London Krishnamoorthi Matric Higher Secondary School • Orathanadu • 2019 • 72%

SSLC
London Krishnamoorthi Matric Higher Secondary School • Orathanadu • 2017 • 95%

SKILLS

Front End : HTML5, CSS3, JavaScript and React(Basics)

Programming Language : Core Java

Database Management : SQL

PROJECTS

Tic-Tac-Toe Game Using React
https://poonthendral1475.github.io/tic-tac-toe/
- Developed a classic Tic-Tac-Toe game using React, with a popular JavaScript library for building user interfaces and CSS3 for ensuring seamless Styling and Responsive design.
- The project aimed to showcase proficiency in React fundamentals such as component-based architecture, state management,props, and event handling.

Quiz-Application Using React
https://poonthendral1475.github.io/quiz-app/
- Developed a dynamic and interactive quiz application designed to engage users with a range of questions across various topics.
- Utilized React.js along with hooks such as useState and useEffect to manage application state and lifecycle events efficiently.
- Implemented features such as multiple-choice questions, timed quizzes, and a scoring system to enhance user engagement and percentage of question Answered and Skipped.
